FILE WILL PRERARED IN FRENCH

North Charleroi Produces Rather Unique Statement

ADMINISTRATOR NAMED

A unique paper, the last will and testament of Seraphin Teston, deceased, late of North Charleroi, written in French, has been filed for record with Register of Wills Boyd C. Parshall. With the instrument which was admitted to probate was a literal translation of the will in English made by Prof H. E. Ford of Washington and Jefferson college. Seraphin Teston a native of France, died December 22, 1910 and her will, which was crudely written, was dated September 22. The language of the will itself betokens death. While the instrument was a crude one it is very explicit and not difficult of comprehension. The administrator of the estate is C. J. Mathews of Charleroi.

At the time of the death of the decedent the husband Regis Teston renounced the right to administrate the estate and C. J. Mathews was selected and he gave bond in the sum of $2,000. His account filed showed an amount of $1,043.67.

The will reads as follows: "I write these few lines in order to declare my intentions. I am sick and in danger of death. I wish that all that I have possessed should belong to Marie Rose, seven years old, and that her parents should be guardians for her until she is 21 years old. All the interests that I have with C. W. Mayers and $400 at the First National bank of Monongahela City. I wish that $100 be sent to Victoire Chau-

NORTH CHARLEROI BOND ISSUE PASSES

Vote is 70 to 40 in Favor of Proposal--Money Will be Used to Pay Olf Debt and For Borough Improvement

The proposal to bond the borough of North Charleroi to the extent of $14,000 to pay off a floating indebtedness and to provide funds for borough improvement carried in a special election which was held Tuesday. The vote was 70 to 40, the total vote of 110 representing about a third of the registered voters.

In the announcement of the special election it was stated that $10,000 of $14,000 would be utilized for paying off the floating indebtedness. It is now stated that less than this amount will be necessary by reason of money due on paying hens being paid. The balance of the issue if course will be used in borough improvement, of which North Charleroi is declared to be much in need.

It is expected that fully $8,000 will be available for this last named purpose. Borough improvement will consist of grading, paving, sewering or doing such work as is found to be most needed.

ENTHUSIASM OVER MARKET PROSPECTS

Institution of Curb Sale Beginning Saturday Attracting Attention--Many Producers to be There Promptly at Hour Set

Charleroi will get its first experiece with a curb market Saturday, when the first curb sale of country produce will be held along Sixth street, between Washington avenue and the railroad. Since Charleroi originated the scheme in Western Pennsylvania some time ago, numerous towns and cities have copied it and some of them have it in successful operation.

A number of farmers and produce men have agreed to come in on Saturday morning with goods for sale, and now about the only thing that seems necessary is to get the housewives and people generally to patronize the market.

The curb market will open promptly at 7 o'clock, and there will be potatoes, cucumbers, beets, strawberries and all the early marketable garden products on sale. Prices will be as low or lower, than to be had at retail stores and the quality will be assured. The curb market committee is working hard to make the affair a success from the start off, and indications are that their hopes will be verified.

Heffran conducted the inquest. The train jumped the track and the engineer and fireman were caught. Two coaches were burned.

FIRST DANCE OF SERIES IS GIVEN

The first of a series of summer dances to be given bya committee of Charleroi young men was held at Eldora Park Tuesday evening and it proved a decidedly enjoyable function. About 45 couples were present. Dancing was from 8 to 12.

The affair was prettily appointed and well carried out by the young men in charge. Features were favor dances, and serpentine dances.

Charleroi folks constituted the major portion of the party. Others were in attendance from Uniontown, Monessen, Monongahela, Donora and Belle Vernon.

Showed Great Picture Tragedy.

Large crowds attended the Palace Theatre Tuesday evening, where "The Orleans Coach," a Pathe film in three reels was a feature. The film was a model of photographic excellence and acting, while the story was one of the great tragedies of the stormy times of the first French republic.

ROOF FIRE BRINGS OUT THE FIREMEN

What might have been a very disastrous fire was narrowly averted today at the home of Freeman Johnson, on Eighth street. Several boys playing together had prepared a sort of burlap tent under the Johnson porch. One of the boys it is stated secured some matches with which to look for three pennies which he had lost. The burlap took fire. Before the flames were noticed, the place was an oven. However it had not advanced so far but that a few bucketful of water extinguished it with but little damage.

The building will be paid for with funds provided by a bond issue of $70,0000 that was recently voted upon by the borough.

The school board took up considerable business Tuesday night. Besides completing the election of teachers and making final selection of an architect for the new building, it received the regular monthly reports of the various school officer and took up the routine of monthl business.

One matter that was handled was that of the sale of what was known as the Hartupee building on the newly purchased school site at the corner of Crest avenue and Sixth street.

Bide were received for this building. The bid of G. H.Peiper was considered best by the school board and the building was sold to him.

School treasurer E. W. Hastings reported building receipts for the month ending May 31 of $920.34, with a balance from the last report of $598.98. Disbursements amounted to $3,544.23, leaving a balance in the treasury of $1,797.07.

Tax Collector J. W.Mathias reported building receipts placed in the treasurer's hands of 1909, 1910, and 1911 taxes amounting to $277.63. School receipts for the same period were $557.57.

VISITORS TO BRING OWN BANDS

Parade Feature for Sunday School Convention Taken Cara of

CABINET HOLDS MEETING

That there will be plenty of bands for the monster men's parade to take place Friday evening June 21, during the Washington County Sunday School convention was a report made at a meeting of the Charleroi district executive cabinet in Christ Lutheran church Tuesday evening. Rev. Hackett made the report for the entertainment committee stating that out of nearly 50 Sunday Schools he had heard from in the county, six of them had promised to send bands, and another would try. There will be about four local bands. The most of the Sunday Schools are yet to be heard from so that if even a very small percentage of them bring bands, there will be 14 or 15. Probably these bands will be grouped into one monster organization at a certain point while preparing for the parade to render an impromtu concert.

Rev. Murray C. Reiter of Canonsburg, president of the county Sunday School association and Mrs. Mary L. Stewart the county field secretary were present at the meeting and commended the local committee on their efforts. Mrs. Stewart paid Charleroi the compliment that not another town or borough or district in the county could or would prepare so thoroughly for a Sunday School convention.

Reprts were heard from various committees, all reporting the best

PARCELS POST GAINING.

From the fact that the Postmaster General and the Senate post office committee are co-operating on a parcels post bill, strong hopes are entertained that Congress will pass this important measure before it adjourns. Although the House has approved of the parcels post and incorporated a measure in the post office appropriation bill, it is generally conceded, even by friends of the parcels post, that the measure has little real practical value. The Bourne bill, which the Postmaster General indorses, is a genuine measure, and meets the approval of all in favor of the system. It is hoped that this measure will ultimately be passed.

Sooner or later the parcels post will become an accomplished fact in this country. Those who are opposing it are simply fighting against fate, as well as the interests of the entire public. All other civilized nations have the parcels post but the United States, whose people are prevented from getting this important service simply through the machinations of selfish interests. As the Philadelphia Press aptly remarks, "it is impossible to allow foreigners to send eleven-pound packages through our mails as they do now, and deny the privilege to our own people." There must be a square deal, and to give to foreigners advantages which are denied to our own citizens is a condition that should not be tolerated. The Congressman or Senator who opposes a fair parcels post proposition is an enemy of the people.

THE PLAYGROUND MOVEMENT.

That the public playground movement is reaching vast proportions is evidenced by the installation of the system in the most of the cities and the large towns of the country. A beautiful park and playgrounds has just been thrown open to the public at Beaver Falls, and the board of education of Rochester, this state, has taken steps to secure a playground where children may indulge in wholesale and regulated play during the vacation period. The character of modern town life has made this necessary, and all progressive communities are getting in with the movement.

Chicago is probably the pioneer city in the playground movement in this country. It is stated that this city has expended $12,000,000 for playgrounds and maintenance since the movement started, and the taxpayers are well satisfied with the expenditure and consider it money well invested. Charleroi was the pioneer in the playground movement in the Monongahela valley as well as in Washington county, and the work done here is already on a basis that insures its permanency. Any person who doubts this statement should visit the local playgrounds any afternoon, where it requires but a glance to be convinced.

PICKED UP IN PASSING

"Buffalo Bill's recent visit to Charleroi reminds me of an incident that occurred up in Bradford over thirty years ago, when I was living in that hustling oil town," said a valley resident a day or two ago. "After embarking in the wild west business Buffalo Bill used to conduct a wild west play on the stage during the winter time, where to blood and thunder scenes he appeared to do the heroics as well as fancy shooting. At the time mentioned his play was billed to appear in Bradford, and as Buffalo Bill was a distinguished personage the mayor of the city and a lot of prominent men aranged to pay their respects to him.

"On the night of the performance the delegation attended the theatre and were invited behind the scenes by the principal. While one of the acts was on we were behind the rear sliding scenes, which partitioned off the front of the stage. The front curtain was up, and just as the mayor handed Buffalo Bill a flask of choice whiskey, and the noted scout had tipped the bottle up, and the contents were gurgling alluringly down his neck, I signalled to one of the other fellows and we pulled the screen back. There was revealed to the audience Buffalo Bill in the act of taking a dring, surrounded by the mayor, half a dozen councilmen and a lot of other prominent citizens.

"Buffalo Bill was furious, but I squared myself by alluding to the big hit he made with the audience—which went wild over the scene, and seemed to think it a part of the performance—and the Colonel became somewhat mollified."

Speaking of "Dante's Inferno," which completes a three-days' engagement this afternoon and evening at the Coyle Theatre, R. S. Coyle said:

"Seen in the right disposition, such a living picture can only make for the betterment of the on-looker. In the large cities where these films have been exhibited the clergy has taken a lively interest in the exhibition, as they are all familiar with the Divine Comedy of Dante. In the language of a prominent Philadelphia churchman who witnessed the exhibition, 'Dante's Inferno' is the 'epic of remorse, repentance, purification and final uplifting. It depicts the depravity of the world and points the way to social regeneration. The picture vividly tells how man turns his back on sin, after having laborously weaned himself from it.'

"Last week I jokingly asked one of the local pastors if he wouldn't announce the presentation of these great allegorical films from his pulpit, but he replied in the same spirit that his mission was to tell people to try to go to heaven instead of to hell."

More Light.

Fresh air enthusiasts are familiar enough to most of us, but we hear less of enthusiasm for light. Darkened parlors, darkened bedrooms, darkened sickrooms, are too common. Sir B. W. Richardson, the eminent London scientist and physician, declared that when the professors of healing enter a sickroom their first words in most cases ought to be Goethe's dying exclamation, "More light! More light!" The light of the sun is God's own microbe killer, germicide, disinfectant, prophylactic, sickness healer. There is no physician, no chemical antidote, no compounded prescription to be compared with sunlight. Without it nature could not perform her functions. Man, beast, bird, insect would fall victims to the deadly gases that would prevail. The horrid mists and deadly gases are dispersed and decomposed by the action of light. Let it in, everywhere! Let the light in more and more abundantly. Faded carpets are not as pitiful as faded cheeks. Spoiled cushions are trivial compared with spoiled health. Darkened rooms are too suggestive of darkened lives.—The Christian Herald.

Goose an Old Man's Guard.

When traveling along the road from Legars toward Kennelstonehead Cottages, Stichill, Kelso, I met an old gentleman walking with the assistance of crutches, and a goose following as closely as possible behind him, avers a writer in the Scotsman. I stopped and spoke to the old man and the goose at once took up its position between his leg and the crutch on the side nearest to me. It then proceeded to make as much noise as possible, and assumed all the defiant attitudes imaginable.

On my approaching within a few feet of the old man it at once flew at me, and pecked, or rather bit, violently at my legs. I tried to keep it at bay by pushing it away with my feet, but that was of no avail, and I had ultimately to strike it over the bill with my walking stick to make it release its hold on my trousers. I found out later that it had bitten a considerable piece of skin off my leg.

The old gentleman informed me that the goose follows him wherever he goes, and during stormy weather when he cannot venture outside it spends the day at the door of his cottage or else near by

MUSICAL TREAT AT THE COYLE

Rare musical treat is promised theatre-goers in Charleroi next week at the Coyle Theatre when Manager R. S. Coyle will bring the Shady Grove orchestra here for a three day's engagement—Monday, Tuesday and Wednesday. Because of increased business and attendance at Shady Grove Park Mr. Coyle is obliged to enlarge his dancing pavilion, and is having the two dancing pavilions thrown into one. This will require a matter of about three days and while the work is in progress Mr. Coyle has made arrangements to bring his orchestra to the Coyle Theatre in Charleroi.

Under the leadership of Louis Ritzko, the famous Gypsy violinist, who is well known in Charleroi, the Shady Grove orchestra is composed of a company of accomplished musicians. In addition to Prof. Ritzko, violinist is Ralph Wheeler, pianist, Harold Decker, cornetist, formerly leader of the famous Tenth Regiment band, and Prentice Beeson drummer. The latter has for several seasons been a member of the famous band and orchestra at the Assembly grounds at Chautauqua, N. Y., which under the leadership of Henry Vincent, is one of the noted musical organizations of the country.

This orchestra will be at the Coyle Theatre Monday, Tuesday and Wednesday of next week. No extra charge will be made for this attraction. A coming attraction is "Jess," a three-reel Thanhauser, which is a motion picture of Rider Haggard's great story.

AMERICAN DISEASE TO BE CONQUERED

NEW PRODUCT MAKES ASTONISHING RECORD IN COMBATING PREVALENT AILMENT.

Men and Women Everywhere Deeply Interested In Discussion of Remarkable Results.

For a number of years past the medical fraternity of America have shown a good deal of alarm over the spread in this country of the malady commonly called nervous debility. To such an extent has this condition affected men and women in America, that it has come to be known as the "American Disease." Various treatments have been in vogue, usually with indifferent success. Rest Cures, Vacations, trips abroad, etc., coupled with the administration of drugs have been tried. Without doubt freedom from grinding work and business cares for a time is of great benefit to any man or woman threatened with nervous breakdown. Comparatively few people however, can spare the time or money necessary to take a lengthy vacation, or expensive journey.

The average man or woman, therefore, who is afflicted with nervous debility, sleeplessness, poor appetite, nervous indigestion and headaches, lack of strength, weak heart, and a general run down condition of the system, owing to impoverished nerve force, will be interested to know that a most efficient remedy for these troubles is now at hand, and within the reach of all.

The treatment is now obtainable of druggists generally, and is known to the drug trade as Wade's Golden Nervine. Reports from those who have tested this product indicate that it is an ideal reconstructive and nerve tonic, and an especial appeal for favor is made in the fact that it is entirely free from alcohol, morphine, or narcotics of any kind. While distinctly soothing and quieting to the over-wrought nervous system, it possesses the very necessary up-building and restorative power which has been lacking in other treatments used for this purpose.

Druggists in this city report that Wade's Golden is showing unusual results in combating nervous debility, and that sales of the product warrant them in buying from the manufacturer direct. This was the condition at

Publicity!

THE PRIMER OF SUCCESS

Do you want a position?
Do you want a girl?
Do you want to rent your furnished room?
Do you want to sell your house?
Do you want to sell your eggs, poultry or live stock?
Have you lost anything?
Have you anything to trade?
Do you want to sell your piano?

There are many who want to do one or the other of these things. Most of them don't know how to go about it. If they could only tell the people what they want they would be all right. If they could only let the people know without disclosing their identity that might be better still.

If you wont to buy, sell or secure any of the above, or if you want to trade anything, did it ever occur to you that the best thing in the world to do is to use the Classified Columns of the Mail.

Why do we give you this advice? To make business for ourselves? Certainly! To help you? Just as certainly! We are the medium between you and what you want. You just place a cent-a-word advertisement with us and we spread this advertisement before **Five Thousand People Every Day.** That is the market with which we bring you into touch. Isn't the advantage of being placed in touch with 5,000 people worth this insignificant sum?

Try it, and you will reap the benefit of your advertisement a thousand fold

AWAKENED TRAIN OF THOUGHT

Little Incident That Would Have Made Almost Any Man Superstitious.

Seeking to dispel the pangs of lonesomeness occasioned by the absence of his wife, who had been away for several days visiting her parents in another city, a fashionable and well-known resident of the East side invited a number of his men friends to his home one night last week to play cards and clink glasses.

Being fond of music the host engaged a four-piece orchestra and while his guests exchanged deals and raised the cut glasses to their lips he found more pleasure in reclining in a favorite leather cushioned chair and listening to the music.

It was nearing the time for departure when one of the merry-makers proposed that each guest drink a toast to the host and that he respond. When all had followed the suggestion they turned toward the host. "Tell us what you are thinking of your wife," one suggested as the party giver hesitated.

Raising his glass to a level with his lips he was about to respond. "I was thinking and wondering—"

Just at that moment the orchestra began its rendition of "I Wonder Who's Kissing Her Now."

The guests never heard the response, but if they had lingered outside and peered through the library window they would have seen him writing a letter which was later enclosed in an envelope bearing a special delivery stamp. The contents of the message have not been made public, but the wife came home two days later.—Kansas City Journal.

WITTY, AND ACTUAL TRUTH

But Probably Explanation of Washingtonian Failed to Satisfy Foreigner.

There is a certain public man in Washington long noted for his quaint wit. One day last winter, when the sidewalks were quite slippery by reason of a fall of sleet that morning, this official and his wife were proceeding down a thoroughfare carefully picking their way. Just ahead of them was a little foreigner, a member of one of the legations, who was having just as much difficulty as they in keeping on his feet. Finally the little fellow slipped and fell, but not with sufficient force to injure him. His dignity, however, received a frightful shock, for he sprawled over the pavement in the most ludicrous way.

The lady could not restrain a smile, perceiving which the irate foreigner, as soon as he had picked himself up, rushed forward tnd presented the official with his card.

The recipient looked the card over very carefully. "Beg pardon," said he, "but why am I thus favored?"

"Your ladee here," raged the foreigner, "she laugh at me as I fall! I, sir, I demand the satisfaction!"

The American gently handed back the card. "I'd like to oblige you, my dear sir," said he, "but I think you've addressed the wrong party. I would suggest that you go to this lady's brother and demand of him the satisfaction you seek. She is no blood relative of mine!"

Oppose Eccentric Dances.

London hostesses, following the tradition of the land which found its way into the saying "Write a letter to the Times," are letting newspapers know that they will resist to the utmost any effort to introduce the grizzly bear hug and other American dances into English ballrooms. The newspapers themselves do not share the fear that these freaks of the waxed floor will gain a foothold there, but one of them says that "though the craze for freak dancing prevalent in America has not yet invaded England, the American influence is plainly visible in many English ballrooms, and eccentricities in dancing seem to be gaining favor with a section of the dancing public."

New Idea in Teapots.

The tipsy teapot is popular nowadays at afternoon teas. It may be found in Fifth avenue homes and in the rooms of the Barnard college girls. The pots are handy for brewing tea daintily and quickly. The tipsy teapot has six legs instead of feet. In the teapot is a special receptacle for the tea, with holes for the water to percolate from the main part of the pot. The tea is placed in the little compartment and then the pot is tipped on its side, permitting the steaming water to absorb the strength of the tea leaves.—New York Press.

School Children Handicapped.

"Fully one-third of all children in the primary and grammar grades are physically or mentally incapacitated, or both," says Rheta Childe Dorr, in an article on "The Child That Is Different," in the Century. "These children, approximately one-third of all children under fourteen years of age, cannot keep up with the ordinary school curriculum, which is devised to meet the needs of perfectly healthy, normal, average, well fed, well cared for youngsters."

AMERICAN EMPRESS OF KOREA

Her Son Would Have Been Ruler But for Annexation of the Country by Japan.

The empress of Korea, who died recently, was born in Appleton, Wis., the daughter of a Methodist minister, a "circuit rider" who made Appleton his home for a few years before the war, says the New York Evening Post. The Rev. Mr. Brown was a handsome southerner, and his wife a woman of exceptional beauty, who transmitted her beauty to her daughter Emily, who was born in 1861. Shortly after the war, when Emily was about five years old, the family left Appleton; and ten years later the Rev. Mr. Brown took his wife and daughter to Seul, the capital of Korea, and was said to have been the first Protestant missionary to enter the capital of the Hermit Kingdom. The young Appleton girl soon learned the language of the Koreans, and acted as interpreter in dealings between the missionaries and the government. She had a remarkably sweet voice and attracted many natives to her father's mission by her wonderful singing of hymns. The emperor heard of the remarkable beauty and wonderful voice of the American girl and commanded her to enter his harem, which she indignantly refused to do. Two years later, however, when the mission was in financial straits, she accepted the emperor's offer and became one of his wives, with a promise of marriage in her father's mission as soon as conditions permitted. When the American wife had borne the emperor a son and his queen had died, Emily Brown was proclaimed queen, the ruler of Korea then being a king, and when he proclaimed himself emperor she became empress and received the name of Om, which, in the Korean language, means "Dawn of the Morning" or "As Beautiful as the Rising Sun." Emily Brown was the emperor's favorite wife and her son was made the heir apparent, and, but for the annexation of Korea by Japan, he would have become emperor on the death of the father.

Equity.

Owing to the increased cost of everything, the doughnut had become too valuable to eat. Accordingly it was being financed.

Naturally an enterprise of such magnitude was fraught with more or less uncertainty. "How, for instance," the underwriters asked, "about the hole—is it to be financed, too?" So the courts were appealed to.

"The hole," these decided, after three or four years, "is the equity, and as such it may not be financed."

U. S. Doughnut fell off a point or two, but speedily recovered, because something had to be the equity anyway.—Puck.

Same Girl.

"Dad, I want to marry Tottie Twinkletoes. I hope you won't blame me for wanting to marry a chorus girl."

"Not at all, my boy. I wanted to marry her myself when I was about your age, and your grandfather was also engaged to her once."

Devout Mecca Pilgrims.

We stopped our special train yesterday for an hour or two in the very middle of native Africa, and went for a morning walk. There were troops of natives on donkeys from the villages around coming for water to the wells, which they themselves dig, and we talked to some delightful native boys about their lives.

One boy standing by the well, to my surprise, was on his way to Mecca, having traveled already two or three thousand miles, which had taken two or three years. His father had died on the way, and when I asked him how he would manage he said quietly: "God will provide," and it never entered his mind to ask me for anything.

Five minutes afterward we came across three women—an old woman and two daughters. The eldest daughter was five and twenty. They were coming back from Mecca, but they had started off, she said, when she was a little girl about twelve.—Bishop of London in the Treasury.

EPISCOPALS ARE BEATEN

First Presbyterians Maintain Lead Through a 6 to 1 Battle

The First Presbyterians maintained their lead on the first place Tuesday evening, when they defeated the Episcopals by the score of 6 to 1. Bert Osborne twirled for the Firsts and used his slants and straights and highballs so effectively that the hits of the opposing aggregation were too much scattered to do much good. Briggs pitched for the Episcopals. Hits off his delivery were not so widely separated but that they did considerable damage. Score:

RAILROAD ISSUES BOOKLET ON SAFETY

In an endeavor to secure greater co-operation from Pennsylvania Railroad employes in the reduction of accidents, that Company is distributing to the men in its shops a pamphlet entitled "The Pennsylvania Railroad and Industrial Safety."

The booklet contains a photograph of the medal recently awarded the Pennsylvania Railroad as the American employer who in 1911, did the most to protect the lives and limbs of its employes. It recites the Railroad's industrial accident record in 1911, showing that by the installation of protective devices it decreased the number of serious injuries to employes in its shops by more than 63 per cent from January 1st to November 1st.

In the Fall of 1910, experts from one of the large accident insurance companies were employed by the Railroad to inspect all the larger shops and to make recommendations as to what should be done to increase the safety measures then in force. The result of this campaign was marked by a decrease in serious injuries, per one thousand shop employes, from 8.7 in January to 3.2 in October. During this period the average number of shop employes was 33,242.

The pamphlet also contains brief extracts from the proceedings of the meeting at the American Museum of Safety when the Railroad was presented with the medal. The remarks of W. W. Atterbury, vice president in charge of operation, in accepting the medal are reprinted in full.

North Charleroi Produces Rather Unique Statement

ADMINISTRATOR NAMED

A unique paper, the last will and testament of Seraphin Teston, deceased, late of North Charleroi, written in French, has been filed for record with Register of Wills Boyd C. Parshall. With the instrument which was admitted to probate was a literal translation of the will in English made by Prof H. E. Ford of Washington and Jefferson college. Seraphin Teston a native of France, died December 22, 1910 and her will, which was crudely written, was dated September 22. The language of the will itself betokens death. While the instrument was a crude one it is very explicit and not difficult of comprehension. The administrator of the estate is C. J. Mathews of Charleroi.

At the time of the death of the decedent the husband Regis Teston renounced the right to administrate the estate and C. J. Mathews was selected and he gave bond in the sum of $2,000. His account filed showed an amount of $1,043.67.

The will reads as follows: "I write these few lines in order to declare my intentions. I am sick and in danger of death. I wish that all that I have possessed should belong to Marie Rose, seven years old, and that her parents should be guardians for her until she is 21 years old. All the interests that I have with C. NORTH CHARLEROI BOND ISSUE PASSES

Vote is 70 to 40 in Favor of Proposal--Money Will be Used to Pay Olf Debt and For Borough Improvement

The proposal to bond the borough of North Charleroi to the extent of $14,000 to pay off a floating indebtedness and to provide funds for borough improvement carried in a special election which was held Tuesday. The vote was 70 to 40, the total vote of 110 representing about a third of the registered voters.

In the announcement of the special election it was stated that $10,000 of $14.000 would be utilized for paying off the floating indebtedness. It is now stated that less than this amount will be necessary by reason of money due on paying liens being paid. The balance of the issue if it carries will be used in borough improvement, of which North Charleroi is declared to be much in need.

It is expected that fully $8,000 will be available for this last named purpose. Borough improvement will consist of grading, paving, sewering or doing such work as is found to be most needed.

ENTHUSIASM OVER MARKET PROSPECTS

Institution of Curb Sale Beginning Saturday Attracting Attention--Many Producers to be There Promptly at Hour Set

Charleroi will get its first experiece with a curb market Saturday, when the first curb sale of country produce will be held along Sixth street, between Washington avenue and the railroad. Since Charleroi originated the scheme in Western Pennsylvania some time ago, numerous towns and cities have copied it and some of them have it in successful operation.

A number of farmers and produce men have agreed to come in on Saturday morning with goods for sale, and now about the only thing that seems necessary is to get the housewives and people generally to patronize the market.

The curb market will open promptly at 7 o'clock, and there will be potatoes, cucumbers, beets, strawberries and all the early marketable garden products on sale. Prices will be as low or lower than to be had at retail stores and the quality will be assured. The curb market committee is working hard to make the affair a success from the start off, and indications are that their hopes will be verified.

Coroner's Jury Gives Verdict in Case of Marianna Disaster

Excessive speed was assigned by the coroner's jury as the cause of the wreck last Saturday afternoon on the Ellsworth branch of the P. R. R., which resulted in the death of two persons, Warren Newell, engineer and John H. Crisswell, fireman, at an inquest that was held this morning at Monongahela. Coroner James L. Heffran conducted the inquest. The train jumped the track and the engineer and fireman were caught. Two coaches were burned.

FIRST DANCE OF SERIES IS GIVEN

The first of a series of summer dances to be given bya committee of Charleroi young men was held at Eldora Park Tuesday evening and it proved a decidedly enjoyable function. About 45 couples were present. Dancing was from 8 to 12.

The affair was prettily appointed and well carried out by the young men in charge. Features were favor dances, and serpentine dances.

Charleroi folks constituted the major portion of the party. Others were in attendance from Uniontown, Monessen, Monongahela, Donora and Belle Vernon.

Showed Great Picture Tragedy.

Large crowds attended the Palace Theatre Tuesday evening, where "The Orleans Coach," a Pathe film in three reels was a feature. The film was a model of photographic excellence and acting, while the story was one of the great tragedies of the stormy times of the first French republic.

ROOF FIRE BRINGS OUT THE FIREMEN

What might have been a very disastrous fire was narrowly averted today at the home of Freeman Johnson, on Eighth street. Several boys playing together had prepared a sort of burlap tent under the Johnson porch. One of the boys it is stated secured some matches with which to look for three pennies which he had lost. The burlap took fire. Before the flames were noticed, the place was an oven. However it had not advanced so far but that a few bucketful of water extinguished it with but little damage.

COOPER THE ARCHITECT FOR SCHOOL BUILDING

Uniontown Man the Choice for Important Charleroi Work

SCHOOL BOARD MEETS

Hartupee House on Building Site at Corner of Crest and Sixth is Sold

Andrew P. Cooper of Uniontown, will be the architect for the new Charleroi school building to be erected on the corner of Crest avenue and Sixth street. This announcement was made this morning by the school board following their first regular meeting of June held Tuesday evening. Mr. Cooper will get to work at once to prepare plans and specifications for the new structure so that there will be no delay in construction work. The building will be paid for with funds provided by a bond issue of $70,0000 that was recently voted upon by the borough.

The school board took up considerable business Tuesday night. Besides completing the election of teachers and making final selection of an architect for the new building, it received the regular monthly reports of the various school officer and took up the routine of monthl business.

One matter that was handled was that of the sale of what was known as the Hartupee building on the newly purchased school site at the corner of Crest avenue and Sixth street.

Bide were received for this building. The bid of G. H. Peiper was considered best by the school board and the building was sold to him.

School treasurer E. W. Hastings reported building receipts for the month ending May 31 of $920.34, with a balance from the last report of $598.98. Disbursements amounted to $1,678 requiring an overdraft of $158.68. In the school treasury fund the receipts amounted to $782.94. The balance from the previous report showed $4,558.36. Disbursements amounted to $3,544.23, leaving a balance in the treasury of $1,797.07.

Tax Collector J. W. Mathias reported building receipts placed in the treasurer's hands of 1909, 1910, and 1911 taxes amounting to $277.63. School receipts for the same period were $557.57.

VISITORS TO BRING OWN BANDS

Parade Feature for Sunday School Convention Taken Cara of

CABINET HOLDS MEETING

That there will be plenty of bands for the monster men's parade to take place Friday evening June 21, during the Washington County Sunday School convention was a report made at a meeting of the Charleroi district executive cabinet in Christ Lutheran church Tuesday evening. Rev. Hackett made the report for the entertainment committee stating that out of nearly 50 Sunday Schools he had heard from in the county, six of them had promised to send bands, and another would try. There will be about four local bands. The most of the Sunday Schools are yet to be heard from so that if even a very small percentage of them bring bands, there will be 14 or 15. Probably these bands will be grouped into one monster organization at a certain point while preparing for the parade to render an impromptu concert.

Rev. Murray C. Reiter of Canonsburg, president of the county Sunday School association and Mrs. Mary L. Stewart the county field secretary were present at the meeting and commended the local committee on their efforts. Mrs. Stewart paid Charleroi the compliment that not another town or borough or district in the county could or would prepare so thoroughly for a Sunday School convention.

Reprts were heard from various committees, all reporting the best

PARCELS POST GAINING.

From the fact that the Postmaster General and the Senate post office committee are co-operating on a parcels post bill, strong hopes are entertained that Congress will pass this important measure before it adjourns. Although the House has approved of the parcels post and incorporated a measure in the post office appropriation bill, it is generally conceded, even by friends of the parcels post, that the measure has little real practical value. The Bourne bill, which the Postmaster General indorses, is a genuine measure, and meets the approval of all in favor of the system. It is hoped that this measure will ultimately be passed.

Sooner or later the parcels post will become an accomplished fact in this country. Those who are opposing it are simply fighting against fate, as well as the interests of the entire public. All other civilized nations have the parcels post but the United States, whose people are prevented from getting this important service simply through the machinations of selfish interests. As the Philadelphia Press aptly remarks, "it is impossible to allow foreigners to send eleven-pound packages through our mails as they do now, and deny the privilege to our own people." There must be a square deal and to give to foreigners advantages which are denied to our own citizens is a condition not to be tolerated. The Congressman or Senator who opposes a fair parcels post proposition is an enemy of the people.

THE PLAYGROUND MOVEMENT.

That the public playground movement is reaching vast proportions is evidenced by the installation of the system in the most of the cities and the large towns of the country. A beautiful park and playgrounds has just been thrown open to the public at Beaver Falls, and the board of education of Rochester, this state, has taken steps to secure a playground where children may indulge in wholesale and regulated play during the vacation period. The character of modern town life has made this necessary, and all progressive communities are getting in with the movement.

Chicago is probably the pioneer city in the playground movement in this country. It is stated that this city has expended $12,000,000 for playgrounds and maintenance since the movement started, and the taxpayers are well satisfied with the expenditure and consider it money well invested. Charleroi was the pioneer in the playground movement in the Monongahela valley as well as in Washington county, and the work done here is already on a basis that insures its permanency. Any person who doubts this statement should visit the local playgrounds any afternoon, where it requires but a glance to be convinced.

PICKED UP IN PASSING

"Buffalo Bill's recent visit to Charleroi reminds me of an incident that occurred up in Bradford over thirty years ago, when I was living in that hustling oil town," said a valley resident a day or two ago. "After embarking in the wild west business Buffalo Bill used to conduct a wild west play on the stage during the winter time, where to blood and thunder scenes he appeared to do the heroics as well as fancy shooting. At the time mentioned his play was billed to appear in Bradford, and as Buffalo Bill was a distinguished personage the mayor of the city and a lot of prominent men aranged to pay their respects to him.

"On the night of the performance the delegation attended the theatre and were invited behind the scenes by the principal. While one of the acts was on we were behind the rear sliding scenes, which partitioned off the front of the stage. The front curtain was up, and just as the mayor handed Buffalo Bill a flask of choice whiskey, and the noted scout had tipped the bottle up, and the contents were gurgling alluringly down his neck, I signalled to one of the other fellows and we pulled the screen back. There was revealed to the audience Buffalo Bill in the act of taking a drink, surrounded by the mayor, half a dozen councilmen and a lot of other prominent citizens.

"Buffalo Bill was furious, but I squared myself by alluding to the big hit he made with the audience—which went wild over the scene, and seemed to think it a part of the performance—and the Colonel became somewhat mollified."

Speaking of "Dante's Inferno," which completes a three-days' engagement this afternoon and evening at the Coyle Theatre, R. S. Coyle said:

"Seen in the right disposition, such a living picture can only make for the betterment of the on-looker. In the large cities where these films have been exhibited the clergy has taken a lively interest in the exhibition, as they are all familiar with the Divine Comedy of Dante. In the language of a prominent Philadelphia churchman who witnessed the exhibition, 'Dante's Inferno' is the epic of remorse, repentance, purification and final uplifting. It depicts the depravity of the world and points the way to social regeneration. The picture vividly tells how man turns his back on sin, after having laborously weaned himself from it.'

"Last week I jokingly asked one of the local pastors if he wouldn't announce the presentation of these great allegorical films from his pulpit, but he replied in the same spirit that his mission was to tell people to try to go to heaven instead of to hell."

More Light.

Fresh air enthusiasts are familiar enough to most of us, but we hear less of enthusiasm for light. Darkened parlors, darkened bedrooms, darkened sickrooms, are too common. Sir B. W. Richardson, the eminent London scientist and physician, declared that when the professors of healing enter a sickroom their first words in most cases ought to be Goethe's dying exclamation, "More light! More light!" The light of the sun is God's own microbe killer, germicide, disinfectant, prophylactic, sickness healer. There is no physician, no chemical antidote, no compounded prescription to be compared with sunlight. Without it nature could not perform her functions. Man, beast, bird, insect would fall victims to the deadly gases that would prevail. The horrid mists and deadly gases are dispersed and decomposed by the action of light. Let it in, everywhere! Let the light in more and more abundantly. Faded carpets are not as pitiful as faded cheeks. Spoiled cushions are trivial compared with spoiled health. Darkened rooms are too suggestive of darkened lives.—The Christian Herald.

Goose an Old Man's Guard.

When traveling along the road from Legars toward Kennelstonehead Cottages, Stichill, Kelso, I met an old gentleman walking with the assistance of crutches, and a goose following as closely as possible behind him, avers a writer in the Scotsman. I stopped and spoke to the old man and the goose at once took up its position between his leg and the crutch on the side nearest to me. It then proceeded to make as much noise as possible, and assumed all the defiant attitudes imaginable.

On my approaching within a few feet of the old man it at once flew at me, and pecked, or rather bit, violently at my legs. I tried to keep it at bay by pushing it away with my feet, but that was of no avail, and I had ultimately to strike it over the bill with my walking stick to make it release its hold on my trousers. I found out later that it had bitten a considerable piece of skin off my leg.

The old gentleman informed me that the goose follows him wherever he goes, and during stormy weather when he cannot venture outside it spends the day at the door of his cottage or else near by.

"The young lady seems rather fragile," remarked the observant man. "Yes," replied Miss Cayenne; "she has one of those artistic appetites. She doesn't care what kind of patent food is in the box so long as the picture on the label is pretty."

Sillicus—"Do you think a man can afford to indulge in two luxuries at the same time?" Cynicus—"Not if they happen to be a wife and a champagne supper appetite."

MUSICAL TREAT AT THE COYLE

Rare musical treat is promised theatre-goers in Charleroi next week at the Coyle Theatre when Manager R. S. Coyle will bring the Shady Grove orchestra here for a three day's engagement—Monday, Tuesday and Wednesday. Because of increased business and attendance at Shady Grove Park Mr. Coyle is obliged to enlarge his dancing pavilion, and is having the two dancing pavilions thrown into one. This will require a matter of about three days and while the work is in progress Mr. Coyle has made arrangements to bring his orchestra to the Coyle Theatre in Charleroi.

Under the leadership of Louis Ritzko, the famous Gypsy violinist, who is well known in Charleroi, the Shady Grove orchestra is composed of a company of accomplished musicians. In addition to Prof. Ritzko, violinist is Ralph Wheeler, pianist, Harold Decker, cornetist, formerly leader of the famous Tenth Regiment band, and Prentice Beeson drummer. The latter has for several seasons been a member of the famous band and orchestra at the Assembly grounds at Chautauqua, N. Y., which under the leadership of Henry Vincent, is one of the noted musical organizations of the country.

This orchestra will be at the Coyle Theatre Monday, Tuesday and Wednesday of next week. No extra charge will be made for this attraction. A coming attraction is "Jess," a three-reel Thanhauser, which is a motion picture of Rider Haggard's great story.

AMERICAN DISEASE TO BE CONQUERED

NEW PRODUCT MAKES ASTONISHING RECORD IN COMBATING PREVALENT AILMENT.

Men and Women Everywhere Deeply Interested In Discussion of Remarkable Results.

For a number of years past the medical fraternity of America have shown a good deal of alarm over the spread in this country of the malady commonly called nervous debility. To such an extent has this condition affected men and women in America, that it has come to be known as the "American Disease." Various treatments have been in vogue, usually with indifferent success. Rest Cures, Vacations, trips abroad, [illegible] administration of drugs have been tried. Without doubt freedom from grinding work and business cares for a time is of great benefit to any man or woman threatened with nervous breakdown. Comparatively few people however, can spare the time or money necessary to take a lengthy vacation, or expensive journey.

The average man or woman, therefore, who is afflicted with nervous debility, sleeplessness, poor appetite, nervous indigestion and headaches, lack of strength, weak heart, and a general run down condition of the system, owing to impoverished nerve force, will be interested to know that a most efficient remedy for these troubles is now at hand, and within the reach of all.

The treatment is now obtainable of druggists generally, and is known to the drug trade as Wade's Golden Nervine. Reports from those who have tested this product indicate that it is an ideal reconstructive and nerve tonic, and an especial appeal for favor is made in the fact that it is entirely free from alcohol, morphine, or narcotics of any kind. While distinctly soothing and quieting to the over-wrought nervous system, it possesses the very necessary up-building and restorative power which has been lacking in other treatments used for this purpose.

Druggists in this city report that Wade's Golden is showing unusual results in combating nervous debility, and that sales of the product warrant them in buying from the manufacturer direct. This was the condition at

Do you want a girl?
Do you want to rent your furnished room?
Do you want to sell your house?
Do you want to sell your eggs, poultry or live stock?
Have you lost anything?
Have you anything to trade?
Do you want to sell your piano?

There are many who want to do one or the other of these things. Most of them don't know how to go about it. If they could only tell the people what they want they would be all right. If they could only let the people know without disclosing their identity that might be better still.

If you wont to buy, sell or secure any of the above, or if you want to trade anything, did it ever occur to you that the best thing in the world to do is to use the Classified Columns of the Mail.

Why do we give you this advice? To make business for ourselves? Certainly! To help you? Just as certainly! We are the medium between you and what you want. You just place a cent-a-word advertisement with us and we spread this advertisement before **Five Thousand People Every Day.** That is the market with which we bring you into touch. Isn't the advantage of being placed in touch with 5,000 people worth this insignificant sum?

Try it, and you will reap the benefit of your advertisement a thousand fold

AWAKENED TRAIN OF THOUGHT

Little Incident That Would Have Made Almost Any Man Superstitious.

Seeking to dispel the pangs of lonesomeness occasioned by the absence of his wife, who had been away for several days visiting her parents in another city, a fashionable and well-known resident of the East side invited a number of his men friends to his home one night last week to play cards and clink glasses.

Being fond of music the host engaged a four-piece orchestra and while his guests exchanged deals and raised the cut glasses to their lips he found more pleasure in reclining in a favorite leather cushioned chair and listening to the music.

It was nearing the time for departure when one of the merry-makers proposed that each guest drink a toast to the host and that he respond. When all had followed the suggestion they turned toward the host. "Tell us what you are thinking of your wife," one suggested as the party giver hesitated.

Raising his glass to a level with his lips he was about to respond. "I was thinking and wondering—"

Just at that moment the orchestra began its rendition of "I Wonder Who's Kissing Her Now."

The guests never heard the response, but if they had lingered outside and peered through the library window they would have seen him writing a letter which was later enclosed in an envelope bearing a special delivery stamp. The contents of the message have not been made public, but the wife came home two days later.—Kansas City Journal.

WITTY, AND ACTUAL TRUTH

But Probably Explanation of Washingtonian Failed to Satisfy Foreigner.

There is a certain public man in Washington long noted for his quaint wit. One day last winter, when the sidewalks were quite slippery by reason of a fall of sleet that morning, this official and his wife were proceeding down a thoroughfare carefully picking their way. Just ahead of them was a little foreigner, a member of one of the legations, who was having just as much difficulty as they in keeping on his feet. Finally the little fellow slipped and fell, but not with sufficient force to injure him. His dignity, however, received a frightful shock, for he sprawled over the pavement in the most ludicrous way.

The lady could not restrain a smile, perceiving which the irate foreigner, as soon as he had picked himself up, rushed forward tnd presented the official with his card.

The recipient looked the card over very carefully. "Beg pardon," said he, "but why am I thus favored?"

"Your ladee here," raged the foreigner, "she laugh at me as I fall! I, sir, I demand the satisfaction!"

The American gently handed back the card. "I'd like to oblige you, my dear sir," said he, "but I think you've addressed the wrong party. I would suggest that you go to this lady's brother and demand of him the satisfaction you seek. She is no blood relative of mine!"

Oppose Eccentric Dances.

London hostesses, following the tradition of the land which found its way into the saying "Write a letter to the Times," are letting newspapers know that they will resist to the utmost any effort to introduce the grizzly bear hug and other American dances into English ballrooms. The newspapers themselves do not share the fear that these freaks of the waxed floor will gain a foothold there, but one of them says that "though the craze for freak dancing prevalent in America has not yet invaded England, the American influence is plainly visible in many English ballrooms, and eccentricities in dancing seem to be gaining favor with a section of the dancing public."

New Idea in Teapots.

The tipsy teapot is popular nowadays at afternoon teas. It may be found in Fifth avenue homes and in the rooms of the Barnard college girls. The pots are handy for brewing tea daintily and quickly. The tipsy teapot has six legs instead of feet. In the teapot is a special receptacle for the tea, with holes for the water to percolate from the main part of the pot. The tea is placed in the little compartment and then the pot is tipped on its side, permitting the steaming water to absorb the strength of the tea leaves.—New York Press.

School Children Handicapped.

"Fully one-third of all children in the primary and grammar grades are physically or mentally incapacitated, or both," says Rheta Childe Dorr, in an article on "The Child That Is Different," in the Century. "These children, approximately one-third of all children under fourteen years of age, cannot keep up with the ordinary school curriculum which is devised to meet the needs of perfectly healthy, normal, average, well fed, well cared for youngsters."

AMERICAN EMPRESS OF KOREA

Her Son Would Have Been Ruler But for Annexation of the Country by Japan.

The empress of Korea, who died recently, was born in Appleton, Wis., the daughter of a Methodist minister, a "circuit rider" who made Appleton his home for a few years before the war, says the New York Evening Post. The Rev. Mr. Brown was a handsome southerner, and his wife a woman of exceptional beauty, who transmitted her beauty to her daughter Emily, who was born in 1861. Shortly after the war, when Emily was about five years old, the family left Appleton; and ten years later the Rev. Mr. Brown took his wife and daughter to Seul, the capital of Korea, and was said to have been the first Protestant missionary to enter the capital of the Hermit Kingdom. The young Appleton girl soon learned the language of the Koreans, and acted as interpreter in dealings between the missionaries and the government. She had a remarkably sweet voice and attracted many natives to her father's mission by her wonderful singing of hymns. The emperor heard of the remarkable beauty and wonderful voice of the American girl and commanded her to enter his harem, which she indignantly refused to do. Two years later, however, when the mission was in financial straits, she accepted the emperor's offer and became one of his wives, with a promise of marriage in her father's mission as soon as conditions permitted. When the American wife had borne the emperor a son and his queen had died, Emily Brown was proclaimed queen, the ruler of Korea then being a king, and when he proclaimed himself emperor she became empress and received the name of Om, which, in the Korean language, means "Dawn of the Morning" or "As Beautiful as the Rising Sun." Emily Brown was the emperor's favorite wife, and her son was made the heir apparent, and, but for the annexation of Korea by Japan, he would have become emperor on the death of the father.

Equity.

Owing to the increased cost of everything, the doughnut had become too valuable to eat. Accordingly it was being financed.

Naturally an enterprise of such magnitude was fraught with more or less uncertainty. "How, for instance," the underwriters asked, "about the hole—is it to be financed, too?" So the courts were appealed to.

"The hole," these decided, after three or four years, "is the equity, and as such it may not be financed."

U. S. Doughnut fell off a point or two, but speedily recovered, because something had to be the equity anyway.—Puck.

Same Girl.

"Dad, I want to marry Tottie Twinkletoes. I hope you won't blame me for wanting to marry a chorus girl."

"Not at all, my boy. I wanted to marry her myself when I was about your age, and your grandfather was also engaged to her once."

Devout Mecca Pilgrims.

We stopped our special train yesterday for an hour or two in the very middle of native Africa, and went for a morning walk. There were troops of natives on donkeys from the villages around coming for water to the wells, which they themselves dig, and we talked to some delightful native boys about their lives.

One boy standing by the well, to my surprise, was on his way to Mecca, having traveled already two or three thousand miles, which had taken two or three years. His father had died on the way, and when I asked him how he would manage he said quietly: "God will provide," and it never entered his mind to ask me for anything.

Five minutes afterward we came across three women—an old woman and two daughters. The eldest daughter was five and twenty. They were coming back from Mecca, but they had started off, she said, when she was a little girl about twelve.—Bishop of London in the Treasury.

RAILROAD ISSUES BOOKLET ON SAFETY

In an endeavor to secure greater co-operation from Pennsylvania Railroad employes in the matter of accidents, that Company is distributing to the men in its shops a pamphlet entitled "The Pennsylvania Railroad and Industrial Safety."

The booklet contains a photograph of the medal recently awarded the Pennsylvania Railroad as the American employer who in 1911 did the most to protect the lives and limbs of its employes. It recites the Railroad's industrial accident record in 1911, showing that by the installation of protective devices it decreased the number of serious injuries to employes in its shops by more than 6[illegible] per cent from January 1st to November 1st.

In the Fall of 1910, experts from one of the large accident insurance companies were employed by the Railroad to inspect all the larger shops and to make recommendations as to what should be done to increase the safety measures then in force The result of this campaign was marked by a decrease in serious injuries, per one thousand shop employes, from 8.7 in January to 3.2 in October. During this period the average number of shop employes was 33,242.

The pamphlet also contains brief extracts from the proceedings of the meeting at the American Museum of Safety when the Railroad was presented with the medal. The remarks of W W Atterbury, vice president in charge or operation, in accepting the medal are reprinted in full.
